| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | IHC-P, WB                                                                                                                                                                                                                                                     |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                         |
| Immunogen                | A portion of amino acids 50-250 was used as the immunogen for the Glutamine Synthetase antibody.                                                                                                                                                              |
| Produktbeschreibung      | Glutamine synthetase (Gl Syn) forms a homo-octamer that serves as a catalyst for the amination of glutamic acid to form glutamine. This enzyme is a marker for astrocytes, which serve as the primary site of conversion of glutamic acid to glutamine in ... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Klon-Bezeichnung         | [GLUL/6600]                                                                                                                                                                                                                                                   |
| UniProt                  | <a href="#">P15104</a>                                                                                                                                                                                                                                        |

|                        |                                                                                               |
|------------------------|-----------------------------------------------------------------------------------------------|
| Reinheit               | Protein A/G affinity                                                                          |
| Formulierung           | 0.2 mg/ml in 1X PBS with 0.1 mg/ml BSA (US sourced), 0.05% sodium azide                       |
| Antibody Type          | Primary Antibody                                                                              |
| Application Verdünnung | Western blot: 1-2ug/ml,Immunohistochemistry (FFPE): 1-2ug/ml                                  |
| Anwendungsbeschreibung | Optimal dilution of the Glutamine Synthetase antibody should be determined by the researcher. |
