| Hersteller               | NSJ Bioreagents                                                                                                                                                                                                                           |
| Wirt                     | Mouse                                                                                                                                                                                                                                     |
| Kategorie                | Antikörper                                                                                                                                                                                                                                |
| Applikation              | IHC-P                                                                                                                                                                                                                                     |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                     |
| Immunogen                | A portion of amino acids 335-425 was used as the immunogen for the Leptin Receptor antibody.                                                                                                                                              |
| Produktbeschreibung      | The Ob gene encodes the protein leptin. The leptin receptor, designated Ob-R, has been shown to be a single membrane-spanning receptor that most resembles the gp130 signal transducing component of the IL-6, G-CSF and LIF receptor.... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                |
| Klon-Bezeichnung         | [LEPR/4301]                                                                                                                                                                                                                               |
| UniProt                  | <a href="#">P48357</a>                                                                                                                                                                                                                    |

|                        |                                                                                          |
|------------------------|------------------------------------------------------------------------------------------|
| Reinheit               | Protein A/G affinity                                                                     |
| Formulierung           | 0.2 mg/ml in 1X PBS with 0.1 mg/ml BSA (US sourced), 0.05% sodium azide                  |
| Antibody Type          | Primary Antibody                                                                         |
| Application Verdünnung | Immunohistochemistry (FFPE): 1-2ug/ml                                                    |
| Anwendungsbeschreibung | Optimal dilution of the Leptin Receptor antibody should be determined by the researcher. |
