| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | FACS, IF                                                                                                                                                                                                                                                      |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                         |
| Immunogen                | Recombinant full-length human ZNF622 protein was used as the immunogen for the ZNF622 antibody.                                                                                                                                                               |
| Produktbeschreibung      | Zinc-finger proteins contain DNA-binding domains and have a wide variety of functions, most of which encompass some form of transcriptional activation or repression. ZNF622 (zinc-finger protein 622), also known as ZPR9 (zinc-fingerlike protein 9), is... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Klon-Bezeichnung         | [PCRP-ZNF622-1C11]                                                                                                                                                                                                                                            |
| UniProt                  | <a href="#">Q969S3</a>                                                                                                                                                                                                                                        |
| Reinheit                 | Protein A/G affinity                                                                                                                                                                                                                                          |

|                        |                                                                                 |
|------------------------|---------------------------------------------------------------------------------|
| Formulierung           | 0.2 mg/ml in 1X PBS with 0.1 mg/ml BSA (US sourced), 0.05% sodium azide         |
| Antibody Type          | Primary Antibody                                                                |
| Application Verdünnung | Flow cytometry: 1-2ug/million cells,Immunofluorescence: 1-2ug/ml                |
| Anwendungsbeschreibung | Optimal dilution of the ZNF622 antibody should be determined by the researcher. |
