| Wirt                     | Mouse                                                                                                                                                                                                                                                         |
| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | IHC-P                                                                                                                                                                                                                                                         |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                         |
| Immunogen                | A portion of amino acids 220-461 was used as the immunogen for the SF-1 antibody.                                                                                                                                                                             |
| Produktbeschreibung      | The protein encoded by this gene is a transcriptional activator involved in sex determination. The encoded protein binds DNA as a monomer. Defects in this gene are a cause of XY sex reversal with or without adrenal failure as well as adrenocortical i... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Klon-Bezeichnung         | [NR5A1/3420]                                                                                                                                                                                                                                                  |
| UniProt                  | <a href="#">Q13285</a>                                                                                                                                                                                                                                        |

|                        |                                                                                                 |
|------------------------|-------------------------------------------------------------------------------------------------|
| Reinheit               | Protein A/G affinity                                                                            |
| Formulierung           | 0.2 mg/ml in 1X PBS with 0.1 mg/ml BSA (US sourced), 0.05% sodium azide                         |
| Antibody Type          | Primary Antibody                                                                                |
| Application Verdünnung | Immunohistochemistry (FFPE): 1-2ug/ml                                                           |
| Anwendungsbeschreibung | Optimal dilution of the Steroidogenic Factor 1 antibody should be determined by the researcher. |
