| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | IHC-P                                                                                                                                                                                                                                                         |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                         |
| Immunogen                | A recombinant protein fragment was used as the immunogen for the BNP antibody.                                                                                                                                                                                |
| Produktbeschreibung      | Natriuretic peptides comprise a family of three structurally related molecules: atrial natriuretic peptide (ANP), brain natriuretic peptide (BNP) and C-type natriuretic peptide (CNP). ANP and BNP act mainly as cardiac hormones, produced primarily by ... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Klon-Bezeichnung         | [NPPB/4493]                                                                                                                                                                                                                                                   |
| UniProt                  | <a href="#">P16860</a>                                                                                                                                                                                                                                        |

|                        |                                                                              |
|------------------------|------------------------------------------------------------------------------|
| Reinheit               | Protein A/G affinity                                                         |
| Formulierung           | 1 mg/ml in 1X PBS, BSA free, sodium azide free                               |
| Antibody Type          | Primary Antibody                                                             |
| Application Verdünnung | Immunohistochemistry (FFPE): 1-2ug/ml                                        |
| Anwendungsbeschreibung | Optimal dilution of the BNP antibody should be determined by the researcher. |
