| Wirt                     | Mouse                                                                                                                                                                                                                                                         |
| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | ELISA, ICC, IHC, IP, WB                                                                                                                                                                                                                                       |
| Spezies Reaktivität      | Human, Mouse, Rabbit, Rat                                                                                                                                                                                                                                     |
| Immunogen                | Fusion protein amino acids 1-61 of rat Kv2.2 (accession number Q63099) produced recombinantly in E. Coli                                                                                                                                                      |
| Konjugation              | Unconjugated                                                                                                                                                                                                                                                  |
| Produktbeschreibung      | Our Anti-Kv2.2 K+ channel mouse monoclonal primary antibody from NeuroMab is produced in-house from hybridoma clone K37/89. It is KO validated, detects human, mouse, rabbit, and rat Kv2.2 K+ channel, and is purified by Protein A chromatography. It is... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Konzentration            | 1 mg/mL                                                                                                                                                                                                                                                       |

|                        |                                                                                                              |
|------------------------|--------------------------------------------------------------------------------------------------------------|
| Klon-Bezeichnung       | [K37/89]                                                                                                     |
| Molekulargewicht       | 125 kDa                                                                                                      |
| Isotyp                 | IgG2a                                                                                                        |
| UniProt                | <a href="#">Q92953</a>                                                                                       |
| Puffer                 | 10 mM Tris, 50 mM Sodium Chloride, 0.065% Sodium Azide pH 7.4                                                |
| Target-Kategorie       | Kv2.2 K <sup>+</sup> channel                                                                                 |
| Antibody Type          | Primary Antibody                                                                                             |
| Application Verdünnung | Dilution Range: WB: 1:1000. Dilution Range: IHC: 1:500. Dilution Range: ICC: 1:500. Dilution Range: IP: 1 µg |
| Anwendungsbeschreibung | Format: Purified by Protein A chromatography                                                                 |
