| Hersteller               | Antibodies Incorporated                                                                                                                                                                                                                               |
| Wirt                     | Mouse                                                                                                                                                                                                                                                 |
| Kategorie                | Antikörper                                                                                                                                                                                                                                            |
| Applikation              | ELISA, ICC, IHC                                                                                                                                                                                                                                       |
| Spezies Reaktivität      | Fish, Human, Mouse, Rat                                                                                                                                                                                                                               |
| Immunogen                | Synthetic peptide amino acids 521-532 (CEDDYNYYYTRS) of human VACHT (accession number Q16572)                                                                                                                                                         |
| Konjugation              | Unconjugated                                                                                                                                                                                                                                          |
| Produktbeschreibung      | Our Anti-VACHT mouse monoclonal primary antibody from NeuroMab is produced in-house from hybridoma clone N6/38. It detects electric ray, human, mouse and rat VACHT, and is purified by Protein A chromatography. It is great for use in IHC, ICC.... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                            |
| Konzentration            | 1 mg/mL                                                                                                                                                                                                                                               |

|                        |                                                                                   |
|------------------------|-----------------------------------------------------------------------------------|
| Klon-Bezeichnung       | [N6/38]                                                                           |
| Molekulargewicht       | 55 kDa                                                                            |
| Isotyp                 | IgG1                                                                              |
| UniProt                | <a href="#">Q16572</a>                                                            |
| Puffer                 | 10 mM Tris, 50 mM Sodium Chloride, 0.065% Sodium Azide pH 7.4                     |
| Target-Kategorie       | VACHT                                                                             |
| Antibody Type          | Primary Antibody                                                                  |
| Application Verdünnung | Dilution Range: WB: 1:250. Dilution Range: IHC: 1:250. Dilution Range: ICC: 1:500 |
| Anwendungsbeschreibung | Format: Purified by Protein A chromatography                                      |
