| Hersteller               | Antibodies Incorporated                                                                                                                                                                                                                                       |
| Wirt                     | Mouse                                                                                                                                                                                                                                                         |
| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | ICC, IHC                                                                                                                                                                                                                                                      |
| Spezies Reaktivität      | Hamster, Human, Mouse, Rabbit, Rat, Xenopus                                                                                                                                                                                                                   |
| Immunogen                | Fusion protein amino acids 2-101 of human KCNQ1(accession number P51787) produced recombinantly in E. Coli                                                                                                                                                    |
| Konjugation              | FL550                                                                                                                                                                                                                                                         |
| Produktbeschreibung      | Our Anti-Kv7.1/KCNQ1 K+ channel mouse monoclonal primary antibody from NeuroMab is produced in-house from hybridoma clone N37A/10. It detects hamster, human, mouse, rabbit, rat, and Xenopus Kv7.1/KCNQ1 K+ channel, and is purified by Protein A chromat... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Konzentration            | 0.5 mg/mL                                                                                                                                                                                                                                                     |

|                        |                                              |
|------------------------|----------------------------------------------|
| Klon-Bezeichnung       | [N37A/10]                                    |
| Molekulargewicht       | 75 kDa                                       |
| Isotyp                 | IgG1                                         |
| UniProt                | <a href="#">P51787</a>                       |
| Puffer                 | PBS with 0.09% azide                         |
| Target-Kategorie       | Kv7.1/KCNQ1 K+ channel                       |
| Antibody Type          | Primary Antibody                             |
| Anwendungsbeschreibung | Format: Purified by Protein A chromatography |
