| Wirt                     | Mouse                                                                                                                                                                                                                                                       |
| Kategorie                | Antikörper                                                                                                                                                                                                                                                  |
| Applikation              | Exosome Staining, FC                                                                                                                                                                                                                                        |
| Konjugation              | ExoBrite(TM) APC                                                                                                                                                                                                                                            |
| Produktbeschreibung      | ExoBrite(TM) APC IgG1 Isotype Control Flow Antibody is designed to be used as a control with ExoBrite(TM) Flow Antibodies for flow cytometry, for detection in the PE channel. Recommended for instruments optimized for small particle flow. 100 tests.... |
| Puffer                   | Proprietary buffer containing 0.05% sodium azide                                                                                                                                                                                                            |
| Quelle                   | Animal                                                                                                                                                                                                                                                      |
| Anwendungsbeschreibung   | Recommended concentration for flow cytometry: 5 uL per 0.1 mL exosomes                                                                                                                                                                                      |
