| Hersteller               | Aviva                                                                                                                                                                                                                                                         |
| Wirt                     | Rabbit                                                                                                                                                                                                                                                        |
| Kategorie                | Proteine/Peptide                                                                                                                                                                                                                                              |
| Applikation              | IHC, WB                                                                                                                                                                                                                                                       |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                         |
| Immunogen                | The immunogen is a synthetic peptide directed towards the middle region of human SNAPC2                                                                                                                                                                       |
| Produktbeschreibung      | SNAPc is involved in transcription by two types of polymerases, it is required for transcription of both the RNA polymerase II and III small-nuclear RNA genes and binds specifically to the proximal sequence element PSE, a non-TATA-box basal promoter ... |
| Klonalität               | Polyclonal                                                                                                                                                                                                                                                    |
| Konzentration            | 1.0 mg/ml                                                                                                                                                                                                                                                     |
| Molekulargewicht         | 36kDa                                                                                                                                                                                                                                                         |
| NCBI                     | <a href="#">6618</a>                                                                                                                                                                                                                                          |

|              |                                                                                                   |
|--------------|---------------------------------------------------------------------------------------------------|
| Formulierung | Liquid. Purified antibody supplied in 1x PBS buffer with 0.09% (w/v) sodium azide and 2% sucrose. |
