| Alternativnummer         | ASB-ARP33059_P050-25UL,ASB-ARP33059_P050-100UL                                                                                                                                                                                                                |
| Hersteller               | Aviva                                                                                                                                                                                                                                                         |
| Wirt                     | Rabbit                                                                                                                                                                                                                                                        |
| Kategorie                | Proteine/Peptide                                                                                                                                                                                                                                              |
| Applikation              | WB                                                                                                                                                                                                                                                            |
| Spezies Reaktivität      | Bovine, Canine, Equine, Guinea pig, Human, Mouse, Porcine, Rabbit, Rat                                                                                                                                                                                        |
| Immunogen                | The immunogen is a synthetic peptide directed towards the N terminal region of human SLC38A2                                                                                                                                                                  |
| Produktbeschreibung      | Under hypertonic conditions the induction of SLC38A2/SNAT2 leads to the stimulation of transport system A and to the increase in the cell content of amino acids. Its amino acid response element, along with a nearby conserved CAAT box, has enhancer ac... |
| Klonalität               | Polyclonal                                                                                                                                                                                                                                                    |
| Konzentration            | 0.5 mg/ml                                                                                                                                                                                                                                                     |
| Molekulargewicht         | 56 kDa                                                                                                                                                                                                                                                        |
