| Spezies Reaktivität      | Bovine, Canine, Human, Mouse, Porcine, Rat                                                                                                                                                                                                                    |
| Immunogen                | The immunogen is a synthetic peptide directed towards the N terminal region of human CCNG1                                                                                                                                                                    |
| Produktbeschreibung      | The eukaryotic cell cycle is governed by cyclin-dependent protein kinases (CDKs) whose activities are regulated by cyclins and CDK inhibitors. CCNG1 is a member of the cyclin family and contains the cyclin box. It lacks the protein destabilizing (PES... |
| Klonalität               | Polyclonal                                                                                                                                                                                                                                                    |
| Konzentration            | 0.5 mg/ml                                                                                                                                                                                                                                                     |
| Molekulargewicht         | 34kDa                                                                                                                                                                                                                                                         |
