| Immunogen                | Recombinant fusion protein containing a sequence corresponding to amino acids 190-280 of human PAX6 (NP_000271.1).                                                                                                                                            |
| Konjugation              | Unconjugated                                                                                                                                                                                                                                                  |
| Produktbeschreibung      | This gene encodes a homeobox and paired domain-containing protein that binds DNA and functions as a regulator of transcription. Activity of this protein is key in the development of neural tissues, particularly the eye. This gene is regulated by mult... |
| Klonalität               | Polyclonal                                                                                                                                                                                                                                                    |
