| Hersteller               | Aviva                                                                                                                                                                                                                                                         |
| Wirt                     | Rabbit                                                                                                                                                                                                                                                        |
| Kategorie                | Proteine/Peptide                                                                                                                                                                                                                                              |
| Applikation              | WB                                                                                                                                                                                                                                                            |
| Spezies Reaktivität      | Canine, Equine, Goat, Human, Mouse, Porcine, Rabbit, Rat, Yeast, Zebrafish                                                                                                                                                                                    |
| Immunogen                | The immunogen is a synthetic peptide directed towards the middle region of human COQ2                                                                                                                                                                         |
| Produktbeschreibung      | COQ2 catalyzes the prenylation of para-hydroxybenzoate (PHB) with an all-trans polyprenyl group. COQ2 mediates the second step in the final reaction sequence of coenzyme Q (CoQ) biosynthesis, which is the condensation of the polyisoprenoid side chain... |
| Klonalität               | Polyclonal                                                                                                                                                                                                                                                    |
| Konzentration            | 0.5 mg/ml                                                                                                                                                                                                                                                     |
| Molekulargewicht         | 42kDa                                                                                                                                                                                                                                                         |
| NCBI                     | <a href="#">27235</a>                                                                                                                                                                                                                                         |

|              |                                                                                                   |
