| Hersteller               | Aviva                                                                                                                                                                                                                                                         |
| Wirt                     | Rabbit                                                                                                                                                                                                                                                        |
| Kategorie                | Proteine/Peptide                                                                                                                                                                                                                                              |
| Applikation              | IHC, WB                                                                                                                                                                                                                                                       |
| Spezies Reaktivität      | Bovine, Canine, Equine, Guinea pig, Human, Mouse, Porcine, Rabbit, Rat, Zebrafish                                                                                                                                                                             |
| Immunogen                | The immunogen is a synthetic peptide directed towards the N terminal region of human GABARAP                                                                                                                                                                  |
| Produktbeschreibung      | Gamma-aminobutyric acid A receptors [GABA(A) receptors] are ligand-gated chloride channels that mediate inhibitory neurotransmission. GABA(A) receptor-associated protein (GABARAP) is highly positively charged in its N-terminus and shares sequence sim... |
| Klonalität               | Polyclonal                                                                                                                                                                                                                                                    |
| Konzentration            | 0.5 mg/ml                                                                                                                                                                                                                                                     |
| Molekulargewicht         | 14kDa                                                                                                                                                                                                                                                         |

|              |                                                                                                   |
