| Hersteller               | Aviva                                                                                                                                                                                                                                                         |
| Wirt                     | Rabbit                                                                                                                                                                                                                                                        |
| Kategorie                | Proteine/Peptide                                                                                                                                                                                                                                              |
| Applikation              | WB                                                                                                                                                                                                                                                            |
| Spezies Reaktivität      | Bovine, Canine, Equine, Guinea pig, Human, Mouse, Rabbit, Rat, Zebrafish                                                                                                                                                                                      |
| Immunogen                | The immunogen is a synthetic peptide directed towards the middle region of human ARL13B                                                                                                                                                                       |
| Produktbeschreibung      | ARL13B has an evolutionarily conserved role mediating cilia function in multiple organs. N and C domains of ARL13B cooperatively regulate its ciliary localization and that N domain-dependent self-association of Arl13b may be important for its functio... |
| Klonalität               | Polyclonal                                                                                                                                                                                                                                                    |
| Konzentration            | 0.5 mg/ml                                                                                                                                                                                                                                                     |
| Molekulargewicht         | 48 kDa                                                                                                                                                                                                                                                        |
| NCBI                     | <a href="#">200894</a>                                                                                                                                                                                                                                        |

|              |                                                                                                   |
