| Applikation              | WB                                                                                                                                                                                                                                                            |
| Spezies Reaktivität      | Canine, Equine, Guinea pig, Human, Mouse, Rabbit, Rat                                                                                                                                                                                                         |
| Immunogen                | The immunogen is a synthetic peptide directed towards the c terminal region of human GLS                                                                                                                                                                      |
| Produktbeschreibung      | Sahai (1983) [PubMed 6825316] demonstrated phosphate-activated glutaminase (EC 3.5.1.2) in human platelets. It is the major enzyme yielding glutamate from glutamine. Significance of the enzyme derives from its possible implication in behavior disturb... |
| Klonalität               | Polyclonal                                                                                                                                                                                                                                                    |
| Konzentration            | 0.5 mg/ml                                                                                                                                                                                                                                                     |
| Molekulargewicht         | 73kDa                                                                                                                                                                                                                                                         |
