| Alternativnummer         | ASB-ARP57761_P050-25UL,ASB-ARP57761_P050-100UL                                                                                                                                                                                                                |
| Hersteller               | Aviva                                                                                                                                                                                                                                                         |
| Wirt                     | Rabbit                                                                                                                                                                                                                                                        |
| Kategorie                | Proteine/Peptide                                                                                                                                                                                                                                              |
| Applikation              | IHC, WB                                                                                                                                                                                                                                                       |
| Spezies Reaktivität      | Bovine, Canine, Equine, Guinea pig, Human, Mouse, Porcine, Rat                                                                                                                                                                                                |
| Immunogen                | The immunogen is a synthetic peptide directed towards the middle region of human ASAH1                                                                                                                                                                        |
| Produktbeschreibung      | This gene encodes a heterodimeric protein consisting of a nonglycosylated alpha subunit and a glycosylated beta subunit that is cleaved to the mature enzyme posttranslationally. The encoded protein catalyzes the synthesis and degradation of ceramide ... |
| Klonalität               | Polyclonal                                                                                                                                                                                                                                                    |
| Konzentration            | 0.5 mg/ml                                                                                                                                                                                                                                                     |
| Molekulargewicht         | 14kDa                                                                                                                                                                                                                                                         |
| NCBI                     | <a href="#">427</a>                                                                                                                                                                                                                                           |

|              |                                                                                                   |
