| Spezies Reaktivität      | Bovine, Canine, Equine, Human, Porcine, Rabbit, Rat                                                                                                                                                                                                           |
| Immunogen                | The immunogen is a synthetic peptide directed towards the N-terminal region of Human BCKDHB                                                                                                                                                                   |
| Produktbeschreibung      | Branched-chain keto acid dehydrogenase is a multienzyme complex associated with the inner membrane of mitochondria, and functions in the catabolism of branched-chain amino acids. The complex consists of multiple copies of 3 components: branched-chain... |
| Klonalität               | Polyclonal                                                                                                                                                                                                                                                    |
| Konzentration            | 0.5 mg/ml                                                                                                                                                                                                                                                     |
| Molekulargewicht         | 23kDa                                                                                                                                                                                                                                                         |
