| Spezies Reaktivität      | Human, Mouse, Rat                                                                                                                                                                                                                                           |
| Immunogen                | Synthesized peptide derived between 981-1030 amino acids from the Internal region of human Jagged1.                                                                                                                                                         |
| Produktbeschreibung      | The jagged 1 protein encoded by JAG1 is the human homolog of the Drosophila jagged protein. Human jagged 1 is the ligand for the receptor notch 1, the latter a human homolog of the Drosophila jagged receptor notch. Mutations that alter the jagged 1... |
| Klonalität               | Polyclonal                                                                                                                                                                                                                                                  |
| Konzentration            | 1 mg/ml                                                                                                                                                                                                                                                     |
| Molekulargewicht         | 140 kDa                                                                                                                                                                                                                                                     |
