| Hersteller               | Vector Biolabs                                                                                                                                                                                                                                                |
| Kategorie                | Proteine/Peptide                                                                                                                                                                                                                                              |
| Produktbeschreibung      | The GATA family of transcription factors, including GATA-1, GATA-2, GATA-3, GATA-4, GATA-5 and GATA-6, bind the consensus DNA sequence 5-WGATAR-3. A related factor, OSP-1, also binds to this sequence. Members of the GATA family share a conserved zinc... |
| Konzentration            | 1x10 <sup>10</sup> PFU/ml                                                                                                                                                                                                                                     |
| Puffer                   | DMEM, 2% BSA, 2.5% Glycerol                                                                                                                                                                                                                                   |
