| Immunogen                | Synthesized peptide derived from Ndfip1 . at AA range: 150-230                                                                                                                                                                                                |
| Produktbeschreibung      | The protein encoded by this gene belongs to a small group of evolutionarily conserved proteins with three transmembrane domains. It is a potential target for ubiquitination by the Nedd4 family of proteins. This protein is thought to be part of a fami... |
| Klonalität               | Polyclonal                                                                                                                                                                                                                                                    |
| Konzentration            | 1 mg/ml                                                                                                                                                                                                                                                       |
| Molekulargewicht         | 25kD                                                                                                                                                                                                                                                          |
