TraKine(TM) Cell Plasma Membrane Staining Kit (Green Fluorescence) ASC-KTC4001

Artikelname	TraKine(TM) Cell Plasma Membrane Staining Kit (Green Fluorescence)
Artikelnummer	ASC-KTC4001
Hersteller Artikelnummer	KTC4001
Alternativnummer	ASC-KTC4001-100, ASC-KTC4001-500, ASC-KTC4001-2000
Hersteller	Abbkine Scientific
Kategorie	Kits/Assays
Produktbeschreibung	Abbkine Cell Plasma Membrane Staining Kits are a set of fluorescence imaging tools for rapid staining of plasma membranes....
Tag	Cell Plasma Membrane
Anwendungsbeschreibung	Abbkine Cell Plasma Membrane Staining Kits are a set of fluorescence imaging tools for rapid staining of plasma membranes in living and fixed suspended or attached cells depending on the cell type and experimental conditions. The kit uses a proprietary lipophilic carbocyanine dye (Ex/Em = 484/501 nm) that weakly fluorescent in water but highly fluorescent and quite photostable when incorporated into membranes.
