Human T-H glycoprotein (THP) ELISA Kit ASC-KTE60088

Artikelname	Human T-H glycoprotein (THP) ELISA Kit
Artikelnummer	ASC-KTE60088
Hersteller Artikelnummer	KTE60088
Alternativnummer	ASC-KTE60088-48, ASC-KTE60088-96
Hersteller	Abbkine Scientific
Kategorie	Kits/Assays
Applikation	ELISA
Spezies Reaktivität	Human
Produktbeschreibung	This Human T-H glycoprotein (THP) ELISA Kit employs a two-site sandwich ELISA to quantitate UMOD....
Detektionsbereich	Please inquire
Sensitivitaet	Please inquire
Tag	UMOD
NCBI	7369
UniProt	P07911
Proben	Cell culture supernatantsSerumPlasmaOther biological fluids

Anwendungsbeschreibung	This Human T-H glycoprotein (THP) ELISA Kit employs a two-site sandwich ELISA to quantitate UMOD in samples. An antibody specific for UMOD has been pre-coated onto a microplate. Standards and samples are pipetted into the wells and any UMOD present is bound by the immobilized antibody. After removing any unbound substances, a biotin-conjugated antibody specific for UMOD is added to the wells. After washing, Streptavidin conjugated Horseradish Peroxidase (HRP) is added to the wells. Following a wash to remove any unbound avidin-enzyme reagent, a substrate solution is added to the wells and color develops in proportion to the amount of UMOD bound in the initial step. The color development is stopped and the intensity of the color is measured.
