Human Poly (ADP-ribose) glycohydrolase (PARG) ELISA Kit ASC-KTE61305

Artikelname	Human Poly (ADP-ribose) glycohydrolase (PARG) ELISA Kit
Artikelnummer	ASC-KTE61305
Hersteller Artikelnummer	KTE61305
Alternativnummer	ASC-KTE61305-48, ASC-KTE61305-96
Hersteller	Abbkine Scientific
Kategorie	Kits/Assays
Applikation	ELISA
Spezies Reaktivität	Human
Produktbeschreibung	This Human Poly (ADP-ribose) glycohydrolase (PARG) ELISA Kit employs a two-site sandwich ELISA to quantitate PARG....

Tag	PARG
NCBI	670
UniProt	Q86W56
Proben	Cell culture supernatantsSerumPlasmaOther biological fluids

Anwendungsbeschreibung	This Human Poly (ADP-ribose) glycohydrolase (PARG) ELISA Kit employs a two-site sandwich ELISA to quantitate PARG in samples. An antibody specific for PARG has been pre-coated onto a microplate. Standards and samples are pipetted into the wells and anyPARG present is bound by the immobilized antibody. After removing any unbound substances, a biotin-conjugated antibody specific for PARG is added to the wells. After washing, Streptavidin conjugated Horseradish Peroxidase (HRP) is added to the wells. Following a wash to remove any unbound avidin-enzyme reagent, a substrate solution is added to the wells and color develops in proportion to the amount of PARG bound in the initial step. The color development is stopped and the intensity of the color is measured.
