### Human Membrane IgM (mIgM) ELISA Kit ASC-KTE61614

Artikelname	Human Membrane IgM (mIgM) ELISA Kit
Artikelnummer	ASC-KTE61614
Hersteller Artikelnummer	KTE61614
Alternativnummer	ASC-KTE61614-48, ASC-KTE61614-96
Hersteller	Abbkine Scientific
Kategorie	Kits/Assays
Applikation	ELISA
Spezies Reaktivität	Human
Produktbeschreibung	This Human Membrane IgM (mIgM) ELISA Kit employs a two-site sandwich ELISA to quantitate mIgM....
Detektionsbereich	Please inquire
Sensitivitaet	Please inquire
Tag	mIgM
Proben	Cell culture supernatantsSerumPlasmaOther biological fluids

Anwendungsbeschreibung

This Human Membrane IgM (mIgM) ELISA Kit employs a two-site sandwich ELISA to quantitate mIgM in samples. An antibody specific for mIgM has been pre-coated onto a microplate. Standards and samples are pipetted into the wells and any mIgM present is bound by the immobilized antibody. After removing any unbound substances, a biotin-conjugated antibody specific for mIgM is added to the wells. After washing, Streptavidin conjugated Horseradish Peroxidase (HRP) is added to the wells. Following a wash to remove any unbound avidin-enzyme reagent, a substrate solution is added to the wells and color develops in proportion to the amount of mIgM bound in the initial step. The color development is stopped and the intensity of the color is measured.
