Human Methylglyoxal (MGO) ELISA Kit ASC-KTE61627

Artikelname	Human Methylglyoxal (MGO) ELISA Kit
Artikelnummer	ASC-KTE61627
Hersteller Artikelnummer	KTE61627
Alternativnummer	ASC-KTE61627-48, ASC-KTE61627-96
Hersteller	Abbkine Scientific
Kategorie	Kits/Assays
Applikation	ELISA
Spezies Reaktivität	Human
Produktbeschreibung	Human Methylglyoxal (MGO) ELISA Kit employs a two-site sandwich ELISA to quantitate MGO in samples....
Detektionsbereich	30 pg/mL-480 pg/mL
Sensitivitaet	1.0 pg/mL
Tag	MGO
Proben	Cell culture supernatantsSerumPlasmaOther biological fluids

Anwendungsbeschreibung

Human Methylglyoxal (MGO) ELISA Kit employs a two-site sandwich ELISA to quantitate MGO in samples. An antibody specific for MGO has been pre-coated onto a microplate. Standards and samples are pipetted into the wells and any MGO present is bound by the immobilized antibody. After removing any unbound substances, HRP-Conjugate Human MGO detection antibody is added to the wells. Following a wash to remove any unbound HRP reagent, a Chromogen solution is added to the wells and color develops in proportion to the amount of MGO bound in the initial step. The color development is stopped and the intensity of the color is measured.
