Human Megakaryocyte-associated tyrosine-protein kinase (MATK) ELISA Kit ASC-KTE61712

Artikelname	Human Megakaryocyte-associated tyrosine-protein kinase (MATK) ELISA Kit
Artikelnummer	ASC-KTE61712
Hersteller Artikelnummer	KTE61712
Alternativnummer	ASC-KTE61712-48, ASC-KTE61712-96
Hersteller	Abbkine Scientific
Kategorie	Kits/Assays
Applikation	ELISA
Spezies Reaktivität	Human
Produktbeschreibung	This Human Megakaryocyte-associated tyrosine-protein kinase (MATK) ELISA Kit employs a two-site sandwich ELISA to quantitate MATK....
Detektionsbereich	Please inquire
Sensitivitaet	Please inquire
Tag	MATK
NCBI	4145
UniProt	P42679
Proben	Cell culture supernatantsSerumPlasmaOther biological fluids

Anwendungsbeschreibung	This Human Megakaryocyte-associated tyrosine-protein kinase (MATK) ELISA Kit employs a two-site sandwich ELISA to quantitate MATK in samples. An antibody specific for MATK has been pre-coated onto a microplate. Standards and samples are pipetted into the wells and anyMATK present is bound by the immobilized antibody. After removing any unbound substances, a biotin-conjugated antibody specific for MATK is added to the wells. After washing, Streptavidin conjugated Horseradish Peroxidase (HRP) is added to the wells. Following a wash to remove any unbound avidin-enzyme reagent, a substrate solution is added to the wells and color develops in proportion to the amount of MATK bound in the initial step. The color development is stopped and the intensity of the color is measured.
