Human Microtubule-associated protein 1A (MAP1A) ELISA Kit ASC-KTE61745

Artikelname	Human Microtubule-associated protein 1A (MAP1A) ELISA Kit
Artikelnummer	ASC-KTE61745
Hersteller Artikelnummer	KTE61745
Alternativnummer	ASC-KTE61745-48, ASC-KTE61745-96
Hersteller	Abbkine Scientific
Kategorie	Kits/Assays
Applikation	ELISA
Spezies Reaktivität	Human
Produktbeschreibung	This Human Microtubule-associated protein 1A (MAP1A) ELISA Kit employs a two-site sandwich ELISA to quantitate MAP1A....
Detektionsbereich	Please inquire

Proben	Cell culture supernatantsSerumPlasmaOther biological fluids

Anwendungsbeschreibung

This Human Microtubule-associated protein 1A (MAP1A) ELISA Kit employs a two-site sandwich ELISA to quantitate MAP1A in samples. An antibody specific for MAP1A has been pre-coated onto a microplate. Standards and samples are pipetted into the wells and any MAP1A present is bound by the immobilized antibody. After removing any unbound substances, a biotin-conjugated antibody specific for MAP1A is added to the wells. After washing, Streptavidin conjugated Horseradish Peroxidase (HRP) is added to the wells. Following a wash to remove any unbound avidin-enzyme reagent, a substrate solution is added to the wells and color develops in proportion to the amount of MAP1A bound in the initial step. The color development is stopped and the intensity of the color is measured.
