Product Datasheet

Human MAP kinase-activating death domain protein (MADD) ELISA Kit ASC-KTE61755

Artikelname	Human MAP kinase-activating death domain protein (MADD) ELISA Kit
Artikelnummer	ASC-KTE61755
Hersteller Artikelnummer	KTE61755
Alternativnummer	ASC-KTE61755-48, ASC-KTE61755-96
Hersteller	Abbkine Scientific
Kategorie	Kits/Assays
Applikation	ELISA
Spezies Reaktivität	Human
Produktbeschreibung	This Human MAP kinase-activating death domain protein (MADD) ELISA Kit employs a two-site sandwich ELISA to quantitate MADD....
Detektionsbereich	Please inquire

Proben	Cell culture supernatantsSerumPlasmaOther biological fluids

Anwendungsbeschreibung

This Human MAP kinase-activating death domain protein (MADD) ELISA Kit employs a two-site sandwich ELISA to quantitate MADD in samples. An antibody specific for MADD has been pre-coated onto a microplate. Standards and samples are pipetted into the wells and any MADD present is bound by the immobilized antibody. After removing any unbound substances, a biotin-conjugated antibody specific for MADD is added to the wells. After washing, Streptavidin conjugated Horseradish Peroxidase (HRP) is added to the wells. Following a wash to remove any unbound avidin-enzyme reagent, a substrate solution is added to the wells and color develops in proportion to the amount of MADD bound in the initial step. The color development is stopped and the intensity of the color is measured.
