Product Datasheet

Intelliscreen(TM) Protein Kinase C Mini-Library FBM-10-7320

Artikelname	Intelliscreen(TM) Protein Kinase C Mini-Library
Artikelnummer	FBM-10-7320
Hersteller Artikelnummer	10-7320
Alternativnummer	FBM-10-7320-1LIBRARY
Hersteller	Focus Biomolecules
Kategorie	Proteine/Peptide
Produktbeschreibung	Comprises 5 inhibitors of the various PKC isozymes...
Formulierung	Supplied as DMSO solution 10mM
Anwendungsbeschreibung	The Protein kinase C family of serine/threonine kinases is involved in many cellular processes including gene transcription, cell growth and proliferation, membrane structure, and various immune responses. The family is divided into three main isozyme categories: Conventional (PKCα, βI, βII, gamma requiring DAG and Ca²⁺), Novel (PKCδ, epsilon, eta, ζ requiring just DAG), and atypical (PKCι, zeta requiring neither DAG nor Ca²⁺).
