Intelliscreen(TM) Immunoregulatory Kinase Inhibitors Mini-Library FBM-10-7335

Artikelname	Intelliscreen(TM) Immunoregulatory Kinase Inhibitors Mini-Library
Artikelnummer	FBM-10-7335
Hersteller Artikelnummer	10-7335
Alternativnummer	FBM-10-7335-1LIBRARY
Hersteller	Focus Biomolecules
Kategorie	Proteine/Peptide
Produktbeschreibung	Comprises 21 Inhibitors of various immunoregulatory kinases...
Formulierung	Supplied as DMSO solution 10mM
Anwendungsbeschreibung	T cells, B cells, and innate immune system cells express cytokine and immune recognition receptors that are activated directly by kinase phosphorylation or adaptor molecules affected by kinases. Advances in kinase inhibitor selectivity have enabled researchers to target specific pathways in immune function leading to treatments for cancer, autoimmune, and inflammatory disorders. The IntelliscreenTM Immunoregulatory kinase inhibitor mini-library offers a broad range of selective kinase inhibitors involved in immune and inflammatory pathways.
