| Konjugation              | Unconjugated                                                                                                                                                                                                                                                  |
| Produktbeschreibung      | Template-independent DNA polymerase which catalyzes the random addition of deoxynucleoside 5-triphosphate to the 3-end of a DNA initiator. One of the in vivo functions of this enzyme is the addition of nucleotides at the junction (N region) of rearra... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Molekulargewicht         | Calculated MW: 59 kDa, Observed MW: 59 kDa                                                                                                                                                                                                                    |
