| Produktbeschreibung      | Cadherins are calcium dependent cell adhesion proteins. They preferentially interact with themselves in a homophilic manner in connecting cells, cadherins may thus contribute to the sorting of heterogeneous cell types. LI-cadherin may have a role in ... |
| Klonalität               | Polyclonal                                                                                                                                                                                                                                                    |
