| Produktbeschreibung      | VEGFR-2 is a receptor tyrosine kinase of the VEGFR family. High affinity receptor for VEGF and VEGF-C. Ligand binding induces autophosphorylation and activation. Activated receptor recruits proteins including Shc, GRB2, PI3K, Nck, SHP-1 and SHP-2.... |
| Klonalität               | Polyclonal                                                                                                                                                                                                                                                 |
| Molekulargewicht         | Calculated MW: 152 kDa, Observed MW: 230,210 kDa                                                                                                                                                                                                           |
