| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | FC, ICC, IHC, WB                                                                                                                                                                                                                                              |
| Spezies Reaktivität      | Bacteria                                                                                                                                                                                                                                                      |
| Konjugation              | Unconjugated                                                                                                                                                                                                                                                  |
| Produktbeschreibung      | The CRISPR associated protein 9 (Cas9) is an RNA-guided DNA nuclease and part of the Streptococcus pyogenes CRISPR antiviral immunity system that provides adaptive immunity against extra chromosomal genetic material. CRISPR/Cas9 genome editing tools ... |
| Klonalität               | Polyclonal                                                                                                                                                                                                                                                    |
| Molekulargewicht         | Calculated MW: 158 kDa, Observed MW: 158 kDa                                                                                                                                                                                                                  |
| UniProt                  | <a href="#">Q99ZW2</a>                                                                                                                                                                                                                                        |
| Puffer                   | Rabbit IgG in phosphate buffered saline , pH 7.4, 150mM NaCl, 0.02% sodium azide and 50% glycerol.                                                                                                                                                            |

|                        |                                                                |
|------------------------|----------------------------------------------------------------|
| Reinheit               | Affinity Chromatography                                        |
| Formulierung           | Liquid                                                         |
| Target-Kategorie       | cas9                                                           |
| Application Verdünnung | WB 1:500-1:1000,IHC 1:50-1:100,ICC/IF 1:50-1:200,FC 1:50-1:100 |
