| Hersteller               | US Biological                                                                                                                                                                                                                                                 |
| Kategorie                | Molekularbiologie                                                                                                                                                                                                                                             |
| Produktbeschreibung      | Negative regulator of bone growth that acts through inhibition of Wnt signaling and bone formation. Source: Recombinant protein corresponding to aa29-213 from rat Sclerostin, fused to 10X His-Tag at N-terminal and Myc-Tag at C-terminal, expressed in ... |
| Molekulargewicht         | 24.9                                                                                                                                                                                                                                                          |
| UniProt                  | <a href="#">Q99P67</a>                                                                                                                                                                                                                                        |
| Reinheit                 | 90% (SDS-PAGE)                                                                                                                                                                                                                                                |
| Formulierung             | Supplied as a lyophilized powder from 20mM Tris-HCl, 0.5M sodium chloride, pH 8.0, 6% trehalose. Reconstitute with sterile ddH2O to a concentration of 0.1-1mg/ml.                                                                                            |
