| Hersteller               | US Biological                                                                                                                                                                                                                                                |
| Kategorie                | Molekularbiologie                                                                                                                                                                                                                                            |
| Produktbeschreibung      | Antibody/Agarose: 2.5mg antibody/ml agarose Agarose/Suspension: 0.2ml agarose/ml of suspension Binding Capacity: 2.5mg Applications: Suitable for use in antibody purification. Other applications not tested. Recommended Dilution: Optimal dilutions to... |
| Reinheit                 | Purified by ion exchange chromatography. IEP Assay shows a single precipitin arc against source serum protein and IgG. IgG fraction of antibody is coupled to activated agarose.                                                                             |
| Formulierung             | Supplied as a lyophilized powder in PBS, pH 7.2, 0.09% sodium azide. No stabilizing proteins added.                                                                                                                                                          |
