| Hersteller               | US Biological                                                                                                                                                                                                                                                 |
| Kategorie                | Molekularbiologie                                                                                                                                                                                                                                             |
| Applikation              | FLISA                                                                                                                                                                                                                                                         |
| Produktbeschreibung      | Applications: Suitable for use in FLISA. Other applications have not been tested. Recommended Dilution: Optimal dilutions to be determined by the researcher. Label: Tetramethylrhodamine isothiocyanate (TRITC) (Molecular Weight 444 daltons) Absorption... |
| Reinheit                 | Purified by ion exchange chromatography. IEP Assay shows a single precipitin arc against source serum protein and IgG.                                                                                                                                        |
| Formulierung             | Supplied as a lyophilized powder in PBS, pH 7.2, 10mg/ml BSA, 0.09% sodium azide. Labeled with TRITC.                                                                                                                                                         |
