| Hersteller               | US Biological                                                                                                                                                                                                                                                  |
| Kategorie                | Molekularbiologie                                                                                                                                                                                                                                              |
| Applikation              | ELISA                                                                                                                                                                                                                                                          |
| Produktbeschreibung      | Control Peptide for N0020-02 (affinity purified antibody) and N0020-01J (antiserum). Synthetic peptide consisting of 17aa sequence located at the predicted cytoplasmic loop near the C-terminus of rat NRAMP2. No significant sequence homology exist with... |
| Reinheit                 | Highly purified                                                                                                                                                                                                                                                |
| Formulierung             | Supplied as a liquid in PBS, pH 7.2, 0.09% sodium azide.                                                                                                                                                                                                       |
