| Produktbeschreibung      | Peroxidase (HRP) is a hemoprotein catalyzing the oxidation by hydrogen peroxide of a number of substrates such as ascorbate, ferrocyanide, cytochrome C and the leuco form of many dyes. Peroxidase has been found well suited for the preparation of enzy... |
| Reinheit                 | Purifitied by chromatography. 90%                                                                                                                                                                                                                             |
| Formulierung             | Supplied as a soluble purified, lyophilized, dialyzed powder. Soluble at 5mg/ml in 0.1M KPO4, pH 6.0, to give a clear brown solution.                                                                                                                         |
| CAS Nummer               | [9003-99-0]                                                                                                                                                                                                                                                   |
