| Hersteller               | US Biological                                                                                                                                                                                                                                                 |
| Kategorie                | Molekularbiologie                                                                                                                                                                                                                                             |
| Applikation              | ELISA                                                                                                                                                                                                                                                         |
| Produktbeschreibung      | A 16aa peptide sequence from the N-terminal, cytoplasmic domain 1 of Mouse SGLT-3 . The kidneys play a major role in the regulation of glucose levels. Kidneys filter approx. 180 g of glucose per day from the blood, and this is mostly reabsorbed back ... |
| Reinheit                 | Highly purified                                                                                                                                                                                                                                               |
| Formulierung             | Supplied as a liquid in PBS, pH 7.2                                                                                                                                                                                                                           |
