| Hersteller               | US Biological                                                                                                                                                                                                                                                 |
| Kategorie                | Molekularbiologie                                                                                                                                                                                                                                             |
| Produktbeschreibung      | Diamine N-acetyltransferase 1(or Spermidine/spermine-N1-acetyltransferase, SSAT1), as known as SAT-1, is a polyamine catabolic enzyme which catalyzes the acetylation of polyamines. This protein plays an important role in polyamine homoeostasis, since... |
| Molekulargewicht         | 22.1                                                                                                                                                                                                                                                          |
| Reinheit                 | ~95% by SDS-PAGE Purified by immunoaffinity chromatography.                                                                                                                                                                                                   |
| Formulierung             | Supplied as liquid in 20 mM Tris-HCl buffer, pH8.0, 10% glycerol                                                                                                                                                                                              |
