| Alternativnummer         | USB-T5499-10B-100                                                                                                                                                                                                                                             |
| Hersteller               | US Biological                                                                                                                                                                                                                                                 |
| Wirt                     | Goat                                                                                                                                                                                                                                                          |
| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | ELISA                                                                                                                                                                                                                                                         |
| Immunogen                | Synthetic peptide corresponding to C-PAKRVRLTEGSD, from TIGD1, at C-terminal (NP_663748.1).                                                                                                                                                                   |
| Produktbeschreibung      | Applications: Suitable for use in ELISA. Other applications not tested. Recommended Dilution: ELISA: 1:16,000 Optimal dilutions to be determined by the researcher. Storage and Stability: May be stored at 4C for short-term only. Aliquot to avoid repea... |
| NCBI                     | <a href="#">663748</a>                                                                                                                                                                                                                                        |
| Reinheit                 | Purified by immunoaffinity chromatography.                                                                                                                                                                                                                    |
| Formulierung             | Supplied as a liquid in Tris saline, pH 7.3, 0.5% BSA, 0.02% sodium azide.                                                                                                                                                                                    |
