## Product Datasheet

**TLR4/MD-2 Complex (Toll Like Receptor 4/MD-2), Clone: [MTS510], Rat,  
Monoclonal  
USB-T8050-35**

|                          |                                                                                                                                                                                                                                                               |

| Produktbeschreibung      | Toll-like receptors are highly conserved from Drosophila to humans and share structural and functional similarities. They are type I transmembrane signaling receptors which activate the innate immune system in response to pathogen invasion. So far, a... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Klon-Bezeichnung         | [MTS510]                                                                                                                                                                                                                                                      |
