## Product Datasheet

**ZNF21 (ZNF182, HHZ150, KOX14, MGC125383, MGC131713, RP1-54B20.4 001, Zfp182, Zinc Finger Protein 182, Zinc Finger Protein 21 (KOX 14), Zinc Finger Protein 21, ZNF21) (Azide Free) (MaxLight 550), IgG1, Clone: [6D11], Mouse, Monoclo  
USB-Z0741-21-ML550**

|                          |                                                                                                                                                                                                                                                               |

| Alternativnummer         | USB-Z0741-21-ML550-100                                                                                                                                                                                                                                        |
| Hersteller               | US Biological                                                                                                                                                                                                                                                 |
| Wirt                     | Mouse                                                                                                                                                                                                                                                         |
| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | FLISA, IF, WB                                                                                                                                                                                                                                                 |
| Immunogen                | Recombinant human protein corresponding to a portion of amino acids within aa81-191 of human ZNF21.                                                                                                                                                           |
| Produktbeschreibung      | MaxLight(TM)550 is a new Yellow-Green photostable dye conjugate comparable to Alexa Fluor(TM)546, 555, DyLight(TM)549 , Cy3(TM), TRITC and offers better labeling efficiency, brighter imaging and increased immunodetection. Absorbance (550nm), Emission... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Klon-Bezeichnung         | [6D11]                                                                                                                                                                                                                                                        |

|              |                                                                                           |
|--------------|-------------------------------------------------------------------------------------------|
| Isotyp       | IgG1                                                                                      |
| NCBI         | <a href="#">008893</a>                                                                    |
| Reinheit     | Purified by immunoaffinity chromatography.                                                |
| Formulierung | Supplied as a liquid in PBS, pH 7.2. No preservative added. Labeled with MaxLight(TM)550. |
