| Hersteller Artikelnummer | Z0741-88                                                                                                                                                                                                                                                      |
| Alternativnummer         | USB-Z0741-88-200                                                                                                                                                                                                                                              |
| Hersteller               | US Biological                                                                                                                                                                                                                                                 |
| Wirt                     | Rabbit                                                                                                                                                                                                                                                        |
| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | ELISA, IHC, WB                                                                                                                                                                                                                                                |
| Immunogen                | Synthetic peptide selected from the N-terminal region of human ZNF219 (KLH).                                                                                                                                                                                  |
| Produktbeschreibung      | ZNF219 is a member of the Kruppel-like zinc finger family that is involved in a diverse range of biological processes. ZNF219 is a 77-kDa nuclear protein containing nine sets of C2H2 zinc finger structures. It may be involved in transcriptional regul... |
