## Product Datasheet

### **Anti-WWOX Antibody Picoband (monoclonal, 3D10) Fluoro594 Conjugated, Clone: [Clone: 3D10], Mouse, Monoclonal BOB-M01223-FLUORO594**

|                          |                                                                                                              |
|--------------------------|--------------------------------------------------------------------------------------------------------------|
| Artikelname              | Anti-WWOX Antibody Picoband (monoclonal, 3D10) Fluoro594 Conjugated, Clone: [Clone: 3D10], Mouse, Monoclonal |
| Artikelnummer            | BOB-M01223-FLUORO594                                                                                         |
| Hersteller Artikelnummer | M01223-Fluoro594                                                                                             |
| Alternativnummer         | BOB-M01223-FLUORO594-100UG                                                                                   |
| Hersteller               | Boster Bio                                                                                                   |
| Wirt                     | Mouse                                                                                                        |
| Kategorie                | Antikörper                                                                                                   |
| Applikation              | FC                                                                                                           |
| Spezies Reaktivität      | Human, Mouse, Rat                                                                                            |
| Immunogen                | E. coli-derived human WWOX recombinant protein (Position: M1-D245).                                          |
| Klonalität               | Monoclonal                                                                                                   |
| Klon-Bezeichnung         | [Clone: 3D10]                                                                                                |
| NCBI                     | <a href="#">51741</a>                                                                                        |
| UniProt                  | <a href="#">Q9NZC7</a>                                                                                       |
| Puffer                   | Each vial contains 50% glycerol, 0.9% NaCl, 0.2% Na <sub>2</sub> HPO <sub>4</sub> , 0.02% Na <sub>3</sub> .  |

|                        |                                                                      |
|------------------------|----------------------------------------------------------------------|
| Reinheit               | Immunogen affinity purified.                                         |
| Formulierung           | Liquid                                                               |
| Target-Kategorie       | WW domain-containing oxidoreductase                                  |
| Application Verdünnung | Flow Cytometry, Optimal dilutions should be determined by end users. |
