## Product Datasheet

### Anti-PPP6C Antibody Picoband Biotin Conjugated, Rabbit, Polyclonal BOB-A05295-2-BIOTIN

|                          |                                                                                                             |
|--------------------------|-------------------------------------------------------------------------------------------------------------|
| Artikelname              | Anti-PPP6C Antibody Picoband Biotin Conjugated, Rabbit, Polyclonal                                          |
| Artikelnummer            | BOB-A05295-2-BIOTIN                                                                                         |
| Hersteller Artikelnummer | A05295-2-Biotin                                                                                             |
| Alternativnummer         | BOB-A05295-2-BIOTIN-100UG                                                                                   |
| Hersteller               | Boster Bio                                                                                                  |
| Wirt                     | Rabbit                                                                                                      |
| Kategorie                | Antikörper                                                                                                  |
| Applikation              | ELISA, IHC, WB                                                                                              |
| Spezies Reaktivität      | Human, Mouse, Rat                                                                                           |
| Immunogen                | E.coli-derived human PPP6C recombinant protein (Position: M1-L305).                                         |
| Klonalität               | Polyclonal                                                                                                  |
| Konzentration            | Adding 0.2 ml of distilled water will yield a concentration of 500 µg/ml.                                   |
| Molekulargewicht         | Calculated Molecular Weight: 35 kDa                                                                         |
| NCBI                     | <a href="#">5537</a>                                                                                        |
| UniProt                  | <a href="#">O00743</a>                                                                                      |
| Puffer                   | Each vial contains 50% glycerol, 0.9% NaCl, 0.2% Na <sub>2</sub> HPO <sub>4</sub> , 0.02% Na <sub>3</sub> . |

|                        |                                                                                                                                                                                                                                       |
|------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Reinheit               | Immunogen affinity purified.                                                                                                                                                                                                          |
| Formulierung           | Liquid                                                                                                                                                                                                                                |
| Target-Kategorie       | Serine/threonine-protein phosphatase 6 catalytic subunit                                                                                                                                                                              |
| Application Verdünnung | Western blot, Optimal dilutions should be determined by end users. Immunohistochemistry (Paraffin-embedded Section), Optimal dilutions should be determined by end users. ELISA, Optimal dilutions should be determined by end users. |
