Product Datasheet

Human Vascular Endothelial Cadherin (VE-Cadherin) ELISA Kit BYT-ORB1807145

Artikelname	Human Vascular Endothelial Cadherin (VE-Cadherin) ELISA Kit
Artikelnummer	BYT-ORB1807145
Hersteller Artikelnummer	orb1807145
Alternativnummer	BYT-ORB1807145-48,BYT-ORB1807145-96
Hersteller	Biorbyt
Kategorie	Kits/Assays
Spezies Reaktivität	Human
Produktbeschreibung	Human Vascular Endothelial Cadherin (VE-Cadherin) ELISA Kit...
Detektionsbereich	31.25-2000pg/mL
Sensitivitaet	13.7 pg/mL
UniProt	P33151
Proben	serum, plasma, Tissue homogenate and Other biological samples
Target-Kategorie	VE-Cadherin

Anwendungsbeschreibung

Application Notes: This ELISA kit uses the Sandwich-ELISA principle. The micro ELISA plate provided in this kit has been pre-coated with an antibody specific to Human VE-Cadherin. Standards or samples are added to the micro ELISA plate wells and combined with the specific antibody. Then a biotinylated detection antibody specific for Human VE-Cadherin and Avidin-Horseradish Peroxidase (HRP) conjugate are added successively to each micro plate well and incubated. Free components are washed away. The substrate solution is added to each well. Only those wells that contain Human VE-Cadherin, biotinylated detection antibody and Avidin-HRP conjugate will appear blue in color. The enzyme-substrate reaction is terminated by the addition of stop solution and the color turns yellow. The optical density (OD) is measured spectrophotometrically at a wavelength of 450 nm \pm 2 nm. The OD value is proportional to the concentration of Human VE-Cadherin. You can calculate the concentration of Human VE-Cadherin in the samples by comparing the OD of the samples to the standard curve
